# THE CORE

The Forté door is available with a choice of two high performance cores and locking mechanisms. Our PU foam-filled core is built with maximum thermal efficiency in mind. Or, for added strength and security you have the option to upgrade to our Forté Solid Core for ultimate peace of mind.

## STANDARD CORE

Specifically designed for the UK market, our standard PU foam-filled composite core delivers outstanding thermal performance to help prevent heat from escaping your home. It also features an LVL (Laminated Veneer Lumber) subframe for extra strength and rigidity.

## EXTREME SOLID CORE UPGRADE

Upgrade your door to our ultimate Forté Solid Core for added security and thermal efficiency. Combined with our Extreme locking system, our core has been tested to meet the standards of the police-recognised 'Secure by Design' standard.

The Forté Core is made up of a traditional foam core that is fitted with horizontal timber plinths then housed between two slim aluminium sheets and exterior grade plywood for a robust structure, and is wrapped in an extra-resilient 4mm GRP skin.

- 1** PIR Foam

Providing excellent thermal capabilities, far exceeding XPS foam as commonly used.
- 2** HDF Plywood

This high-density product exceeds that of plywood providing brilliant rigidity and strength throughout.
- 3** Aluminium Sheet

This is a vital layer within the door construction, it adds stability to the door but also protects against moisture infiltration.
- 4** Exterior Grade Plywood

Additional sheet for door support under the GRP skin.
- 5** GRP Skin

The GRP skins are pressed onto the core with a unique method to ensue flawless correlation with the core.

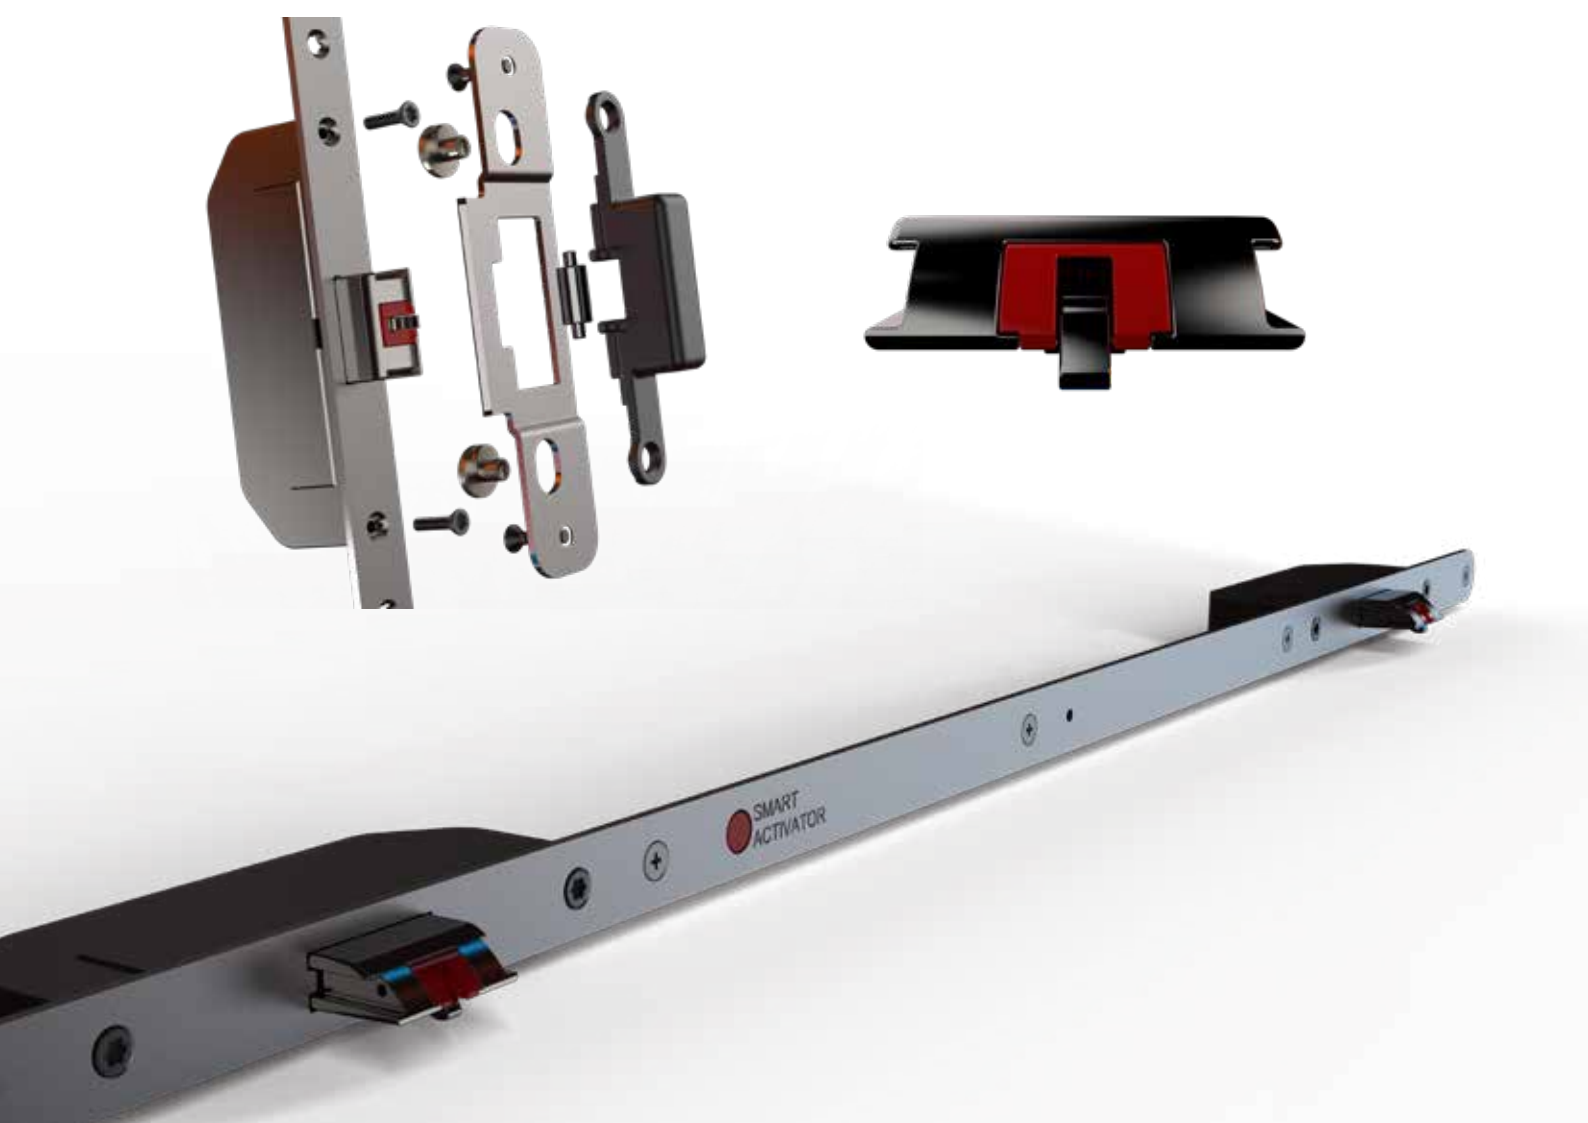

# SECURITY

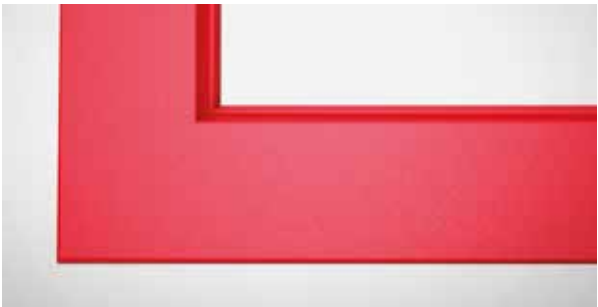

All Forté doors come as standard with our impressive multipoint locking system which protects against break-ins. It features patented technology that works to provide a perfect seal and reduces heat loss.

## EXTREME LOCKING UPGRADE

Our Extreme instant auto-engage locking system can be fitted as an upgrade. Rollers housed within the lock guide the extra-secure 20mm locking bolts into place and form the perfect seal, even if the door isn't fully closed. The result, impenetrable security and keeps your door firmly in place to prevent movement and warping.

# OUR CASSETTE SYSTEM

## FLAT STIPPLE

With a square profile and a smooth, stippled finish, the Flat Stipple is a sleek, contemporary and eye-catching cassette that perfectly matches our links door styles.

## STANDARD

Featuring a moulded cassette and a textured woodgrain finish, the Standard cassette is perfectly paired with a Traditional designs.

## FLAT GRAINED

The Flat Grained cassette combines a classic woodgrain finish with a modern design. Ideal for Contemporary and Monza II doors.

## INOX CASSETTES

Influenced by cutting-edge European design, the Inox is a flat, stainless steel cassette that makes your door stand out from the crowd. Seamlessly designed for the Monza and Links doors.

# DOOR STYLES

There's a door for everyone. Choose your ideal door design from our three distinct ranges, Traditional, Contemporary and Designer. Whether you want a classic door that replicates the look of timber doors or a modern one with continental influences, you'll find your perfect door in our Forte collection.

# LET'S GET GOING

## 1 SURVEY

Our surveying team will visit your home to take measurements, clarify details and ensure your design is suitable before any work commences. Any changes can be discussed at this stage.

## 2 FITTING

We'll manage all the various tradespeople involved in your project from start to finish so you can relax in the knowledge the full journey is mapped out for you in advance.

## 3 AFTERCARE

Once your products have been fully installed, your journey doesn't end there. Our dedicated team of aftercare specialists will look after you and your products for as long as they remain yours.
